Liebe Saskia,

das hier ist der erste Textentwurf für deine Website. Englisch ist die Primärsprache, Deutsch und Französisch werden erst übersetzt, wenn die englische Fassung sitzt.

Du musst jetzt nichts schreiben. Nur lesen, spüren, markieren.

Was ich von dir brauche:

1. Klingt das nach dir? Wo nicht?
2. Stimmen die fachlichen Aussagen (Qualifikationen, Sprachen, Einsatzarten)?
3. Welche Sätze möchtest du auf keinen Fall so stehen lassen?

Platzhalter [Markenname] bleibt, bis wir den Namen haben.

Keine Referenzen, keine Preise, keine Zahlen werden öffentlich, bevor du sie freigegeben hast.

Richtwert für Rückmeldung: diese oder nächste Woche.

Intern · nicht zur Weitergabe an Familien oder Agenturen vor Freigabe.

HOW WE WORK (3 Schritte)

1 · Conversation

Every engagement begins with a qualifying conversation. It lets us understand your family, your children, and the frame you need — and it lets you understand who you are entrusting them to.

2 · Preparation

A clear brief: routines, languages, allergies, preferences, boundaries. Written, confirmed by both sides, never assumed.

3 · Presence

Quiet, professional, present. Your children know someone is holding the frame. You know where you stand at every moment.

CLOSING

Not every family is a fit. That is the point.

We work on a small number of engagements at a time. A qualifying conversation is always the first step — indicative rates from CHF, confirmed after we have spoken.

2 — Über · Who is behind [Markenname]

OPENING

One qualified person. A rare combination.

Behind [Markenname] is SG — a *staatlich geprüfte Erzieherin* (state-certified early-childhood educator), certified ski instructor, yoga teacher, and mother of four. Based in Zermatt. Available internationally.

Name und Foto erscheinen erst nach Namensentscheidung und Shooting.

QUALIFICATIONS

- *Staatlich geprüfte Erzieherin* — state-certified early-childhood educator (Germany).
- *Fachabitur* — vocational higher-education entrance qualification.
- Studies in Social Work, with a focus on early childhood.
- Certified ski instructor.
- Certified yoga teacher.
- First-aid trained for working with children.
- Mother of four.

Each qualification is documented. Certificates available on request during the qualifying conversation.

APPROACH

The way a child is spoken to in the first minute of the morning sets the tone for the day. That is where the work begins.

Children are different. Some need movement before they can sit still. Some need quiet before they can speak. Some need a clear frame more than they need a programme. That is not a diagnosis — that is attention.

This is not therapy, and it does not replace specialists. It is childcare done by a qualified educator who is used to being present without being loud.

A NOTE ON CHILDREN WITH PARTICULAR NEEDS

Some children need more calm, a different pace, or a clearer frame — for reasons that may or may not carry a name. [Markenname] offers depth of attention, not labels. Specialist therapies and medical guidance remain with the professionals who hold them.

3.1 — Global Governness

FOR INTERNATIONALLY MOBILE FAMILIES

One constant, wherever you travel.

Weekly and monthly engagements, in Zermatt or abroad. For children who benefit from continuity and a calmer household rhythm.

What this looks like

- Week- or month-long engagements, single- or multi-location.
- One qualified educator as the constant reference for the children — not a rotating team.
- Clear written brief: routines, languages, school, allergies, boundaries.
- Discreet coordination with existing household staff (housekeepers, drivers, tutors) where present.

Typical fit

- Families based across several residences (e. g. Zurich · London · Dubai · Zermatt).
- Children aged roughly 3–14, single- or multilingual.
- Households that value a professional educator over a generalist.

Indicative frame

- Indicative rates from CHF, confirmed after the qualifying conversation.
- Travel, accommodation, and per diems arranged separately and transparently.
- Languages: English (working language), German, French.

3.2 — Nanny Relief

WHEN YOUR LIVE-IN NANNY IS UNAVAILABLE

Cover that carries the household — without rewriting it.

Qualified, discreet relief for established households during illness, leave, or short-term gaps.

What this looks like

- Engagements from a weekend to several weeks.
- Structured hand-over from your existing nanny or household manager — routines, allergies, preferences — read, confirmed, followed.
- No attempt to reinvent the household. The goal is continuity.
- Written close-out at the end of the engagement, ready for your returning staff.

Typical fit

- Families with an existing live-in nanny who needs leave or medical cover.
- Household managers or family offices coordinating on behalf of the family.
- Nanny agencies looking for a qualified educator to step in.

Indicative frame

- Indicative rates from CHF, confirmed after the qualifying conversation.
- Availability confirmed in writing before any engagement is booked.

3.3 — Ski + Care · Zermatt

IN PARTNERSHIP WITH EVOLUTION SKI SCHOOL ZERMATT

Your day on the slopes. Their day in steady hands.

A calm companion on the mountain and back at the chalet — built for children who benefit from patience as much as technique.

How it works

- The ski lesson itself is delivered by **Evolution Ski School Zermatt** under its own licence and instructors.
- [Markenname] provides the care component: patient companionship, preparation before and transition after the lesson, quiet time at the chalet, meals, routines.
- One qualified educator with her own ski qualification on snow — the transition between lesson and lunch does not require a new face for the child.

Typical fit

- Families staying in Zermatt for a week or longer during the ski season.
- Children who find a pure group lesson too stimulating, or who benefit from a longer settling-in period.
- Parents who want to ski as adults without losing sight of how the children are being held.

Partner note

*[Markenname] does not operate as a ski school. All instruction in Zermatt is delivered by **Evolution Ski School Zermatt** (Fabrizio Pavan). The care element is provided by [Markenname].*
